It Might Happen Here

Labor Unions vs. Civil Service

The Honorable, The City Council,
San Diego, California.

Gentlemen:

I suppose you are reading the newspapers.

McKeesport. Pennsylvania, is an industrial community of 57,000 inhabitants. They are very liberal and democratic and permitted their city employees to belong to the C. I. O. State, County and City Municipal Workers Union.

You know, we are being told that labor unions cannot strike against the government, be it federal, state, county or municipal government. But the labor unions don't seem to know that and the city employees of McKeesport, seem to owe first allegiance to the Labor Union, not to the city which employs them. And so they struck for union recognition by the city government. Result: Paralysis of garbage collection, no repair work of any kind on streets, water and sewer facilities.

Who says it cannot happen in San Diego?

Forewarned is fore-armed.

I am sure that even a 24 hour paralysis along parallel lines in San Diego would cause sufficient damage and confusion to warrant taking precautionary measures in advance.

How many city employees owe first allegiance to labor unions and are civil service employees only as a secondary consideration? . . . merely to collect the pay.

Kindly imagine our water supply being tampered with by striking employees. And our traffic signals being paralyzed. And suppose the employees of the Consolidated Gas & Electric Light Company walk out on a sympathetic strike since many unions have employees and members in both the city and the Gasco, especially in the electric departments. What would happen if electricity were suddenly turned off?

With water and electricity at the mercy of the labor unions where do we stand? I have been present years ago at public meetings of labor racketeers where they went into detail how to bring a city down to its knees by CONTROLLING these two public utilities, water, light and power .

Would it be too much to suggest that the city manager be instructed to make a survey of—

1—How many city employees owe allegiance to a labor union.

2—Who are they and in what departments.

3—Are there trained men NOT AFFILIATED WITH A LABOR UNION, available to take over their duties at a moment's notice in case of strike.

Sincerely, C. LEON de ARYAN.

Lehman Brothers Want War

Reaction Told

WASHINGTON,—Congressional reaction to loss of American lives in the torpedoing of the Robin Moor deserves description. It may reveal how close or distant the United States stands from membership in a "shooting war."

The reasons why attack on an American ship and flag produced no indignant action are curious and mingled. Recognizing that this country has been a theoretical belligerent for more than a year, the members have wondered why Hitler did not retaliate many months ago. They have been expecting it, and it was therefore no surprise when it came.

The congressmen are not coldblooded or callous. Democrats do not differ from Republicans on this grave issue. But they see no cause for going to war because a ship bearing contraband (and everything is contraband in total war), even though flying an American flag, has been torpedoed. Even state department lawyers concede that we have stuck our chin out too far, for a supposedly neutral and non-belligerent nation. The **Lehman brothers'** ownership of the target attracts a certain amount of comment, as does the fact that Emanuel Celler's voice is among the notably few demanding that the Robin Moor incident be made the occasion for immediate and total war.—Ray Tucker.

Billions for American Defense—or Destruction?

Goodby Private Property in U. S. A.

By Chas. B. Hudson

OMAHA, Nebr.,—Congr. Records last week, reporting debates re the strike situation (number reached their peak since beginning of "emergency"), pointed out that FDR had ample power without resort to military might. Also, debates on so-called military bills, S. 7579 and H. R. 4949, providing for dictatorial power by administration over the lives and property of the citizens of the USA, reveal finally and fully the lust for power which animates the alien NUDEAL at Washington and in Wall Street.

As fearless **Congr. Woodruff** says in CR 6-5-41, p. 4913: "The Nation has long wondered why the administration refused obstinately to take the action necessary to end the dangerous and disastrous strikes which were breaking out in every section of the national-defense industries . . . We now have the answer. Apparently **the administration wanted the excuse** of these strikes to buttress the **President's demand for unlimited power** to commandeer property, both real and personal, at his discretion, under the name and excuse of necessities of the national defense. In the first place, personal property means stocks, bonds, bank accounts, automobiles, jewelry; everything from fountain pens up. Any and all of these, including the savings accounts of the small depositors, the President could seize ("take-over"), if this bill passes the Congress, and he could hand the owners pieces of paper called Govt bonds, payable at some time in the future.

"Mr. Speaker, not only is such a grant of power an unconscionable and inexcusable demand upon a country which is not at war, but the **manner in which the bill** is being brought to the Congress is itself deceptive and lacking in frankness or candor. The bill is routed to the Congress by way of the Secy of War, to make it appear that the War Dept. and not the President wants the Chief Executive to have this superpower . . . This proposed measure gives the President **power to forever extinguish any or all rights** of private ownership in any property he might choose. **There is no provision for the return to the status quo at the end of the emergency . . .** Mr. Speaker, the citizens of **America had better become actively interested in what is going on down here,** and register their protest with Congress if they do not want to wake up some day and find their bank accounts taken and in return have handed to them some non-interest-bearing Govt. bonds."

"Emergency" Brings Prohibition

100,000 Sign Dry Referendum Petitions

More than 100,000 signatures have been obtained on the proposed dry referendum petitions, according to Emil E. Fredeen, field representative for the California Prohibition committee, who addressed the recent meeting of the local Prohibition party. The Rev. W. H. Harriss presided at the meeting in the First United Brethren church. It is planned to have the referendum submitted to the people at the fall election in 1942, Freedeen said.

Jewish Warmonger Spreads UNION NOW Propaganda

Nye Hints Order Favors British

GREENVILLE, O.,—Sen. Gerald P. Nye (R-ND) told a meeting of farmers that President Roosevelt's order closing German consulates "will probably not be followed by like orders against British officers and propagandists who are having the time of their lives playing upon American prejudices and sympathies."

"The order by the president," he said in a speech sponsored by the American First committee, "further strains international relationships and is expcted to cause Americans to warm up more strongly to the president's declared emergency."

Real Ruler of G. Britain Demands Protection by U. S. Soldiers

HOLLYWOOD,—Sir Victor Sassoon, British financier and industrialist, told a luncheon of motion picture executives that he believed the British empire's only salvation is to annex itself to the United States.

"The United States," he declared, "needs England, Australia and Canada to consume the exports of South America. And the United States must finance those exports to keep South America an ally.

"England must come into the democracy of the United States with the full rights of statehood. England and the United States must operate under one government. This is the ultimate democracy of the future, the great united democracy that will stop Hitler."

Draft 'Objector' Sent to Prison

NEW YORK,—For violation of the national selective service act, Loewell Leonard Naeve, 24, artist, has been sentenced to serve on year and a day in the federal penitentiary.

Naeve, son of a Colorado mine operator, pleaded guilty. It was charged he tore up his draft registration and mailed it in pieces to Secy. of War Henry L. Stimson.

"If everybody did what I did there would be no wars," Naeve told Federal Judge Edward A. Conger. "It is wrong to kill and I refuse to aid any country in war."

FROM WASHINGTON, D. C.

Dear Mr. de Aryan:

This is to inform you of another change of address. Housing conditions are very bad here, and the blacks are crowding the whites out of various parts of the city. For that reason I am again going to move to the northeast section.

Yours very truly,

Montgomery Ward Picket: Guilty

MOTHER—I notice that the picket you arrested finally pleaded guilty to the charge of overparking and paid her fine in Municipal Court.

DAD—Yes she did. At first it looked as if the county would have had to spend $36 a day in jury fees for 12 jurors to give her a jury trial after I made that citizen's arrest in front of the Montgomery Ward store in April. She and another picket had parked their car all day long in front of the store to keep customers from easy access to the store and the police were doing nothing to stop it. But the TRIBUNE-SUN wrote recently an article about it, pointing out that the fine would be only $1 in case of conviction, as against the court costs of Jury, Judge, Clerk and Marshall fees for subpoenaing witnesses.

MOTHER—So she changed her mind about [illegible] jury trial.

DAD—Her attorneys must have realized that [illegible] sufficient evidence to make my arrest stick and convict her, so they advised her to plead guilty. I never make an arrest unless it is important and I have the evidence to substantiate my action in court.

FRED—Why was it important to make that arrest, daddy?

DAD—The pickets in front of Montgomery Ward imagine they can do anything and get away with it. The police gives them too much leeway, so as a matter of public protest I decided to enforce the law myself and show that if the citizens were as active in enforcing the law as the pickets are in breaking it, we could do away with public nuisances and abuses in a perfectly legal way and need not submit to labor racketeering.

Army Imposes National-Socialism

FRED—I guess, you are glad now that President Roosevelt took over the North American aviation plant in Inglewood and broke up the strike.

DAD—There is nothing to be glad about, Freddy. If the President had taken over the CIO unions involved in the strike and would have ordered an audit of their books to show in detail who gets the money from the workers who must pay dues, initiation fees, assessments and fines in order to be permitted to work in the plant, then the President would have taken a step in the right direction. What he did is the same as what President Wilson did with the Railroads in the previous war. He took over private property because the union had started a disturbance in Inglewood. It is the same as if the Mayor of San Diego would take over the Montgomery Ward store after the council had proclaimed an emergency to exist, which the Council has the power to do under our city charter. That would not settle the dispute.

MOTHER—But what else could President Roosevelt have done? There is no law by which he could take over the union, while there is a law by which he can take over private property.

They Planned It That Way

DAD—That's exactly it. The present administration went ahead and passed the Wagner Labor Racket Act to encourage labor troubles and foment class war by pitching employees against the employers and against other employees who refuse to join a union. The result is all these strikes which disrupt industry and that gives the administration a good excuse to further disrupt private industry by taking over their private property and running it. Nothing

Campus Copperheads

LOS ANGELES,—A group of Lindbergh enthusiasts among the under graduates at conservative, privately-endowed University of Southern California, have formed what is believed to be the first "coil" of "Campus Copperheads". Claiming to have the shortest constitution and by-laws on record, the two together constituted of but three words, "We're for Lindy", they show their colors by wearing a sizable lap button bearing the simple inscription, "I'm a Copperhead".

The provisional officers and charter members have been drawn from the ranks of those who entered vigorous protest at the discourtesy accorded by President Von Kleinsmid and other university authorities to Senator Gerald P. Nye when he recently spoke here under the auspices of the America First Committee. Preparations are under way for a large off-campus rally in the near future to be addressed by prominent local non-interventionists.

The "Campus Copperheads" are affiliated with the National Copperheads, 616 St. Paul, Los Angeles, launched here immediately following President Roosevelt's angry attack which resulted in Colonel Lindbergh's resignation from the army air corps. Also affiliated are the Copperhead Clubs, formed and forming among the pilots of LaGuardia Field and other aviation centers.

The purpose of the organization is declared to be a simple one, namely to "rally and organize in support of the unpolluted Americanism, the straightforward and clear-headed realism and those sound enduring principles so ably and convincingly enunciated over and over by that most popular of all Americans, our beloved Lindy".

Muzzling & Muffling

Dear Mr. de Aryan,

Enc. please find, 10 cts, for which kindly forward 2 copies of BROOM of June 2.

I note about Broom "off the air", which occasions no surprise. Please note my letter to the POST. The nation is in one **heluva** mess and it seems to be growing worse. Our city is choked with war-mongers, political grafters, and even the majority of ministers have been so blinded by the war smoke that they have lost all sense of mental balance.

Well "God is not mocked." We have "sown the wind" and are now "reaping the whirlwind". Perhaps Mr. Roosevelt may shortly realize that the people are not interested in his personality and that when this Santa Claus stuff ends the rabble will start hurling rocks.

Shakespeare was right, " 'Tis a mad world".

Despite the fact that the American people are overwhelmingly opposed to war, as revealed by latest polls, are we going to permit a relatively small group of politicians to force us into the foreign inferno?

We are not in the war as yet, and attempting to clamp the lid on free speech while the radio is being "muffled" is hardly consistent with true concepts of democracy. The Senate and House of Representatives is stuffed with robots who are not heartening to the will of the people but to the "Master's Voice".

Liberty bell, it's time to ring anew!

Sincerely yours,
EDMUND K. GOLDSBOROUGH,
The Westmoreland, Washington, D. C.

Who Makes Slums ?

Editor:

In reading one of our weekly papers this month, I noticed this article headed "Assembly attacks Housing problem". Legislature got around last week to the law permitting the construction of housing projects so that low income people could "escape from the slums".

Huh! Is our legislature so dumb that they do not know who or what makes the slums? I know by the experience I had with a small Court in East San Diego on a street where people owned their own homes and kept them up in good shape. Every 2 or 3 months my tenants would sneak off to some other nice clean building in San Diego and this is the way mine would look—cracked windows, torn screens, flowers and vines torn down and tramped on, busted roofing from their big boots thumping over them fixing radios, outside walls and garages scratched all over with knives and pencils, garbage cans unemptied for days polluting the air and then when emptied early mornings by our City workmen, were left straddled all over the street half the day. Children untaught to keep order strew the front yards with old rubber tires, tincans and sticks that should be placed carefully in the back yard after play hours. Often the milkman, newspaper boy and myself cheated out of some money at that.

This is what makes slums and don't think we will ever get away from them until renters are compelled by the health officer to keep them clean. I have read somewhere that "Cleanliness is next to Godliness" and its true, believe it or not. Landlords are blamed when honest to goodness I believe they find it cheaper to lower the rent and let them live in their own dirt since by the look of the beer and whiskey bottles lying around they seem quite happy and enjoy themselves immensely.

Now in order to keep those housing projects that the legislature seems to have such faith in, from becoming slums also, they will have to hire janitors, plumbers and carpenters by the dozen to keep them in order, or, to save the taxpayer, have a policeman march through the district every twenty four hours, like the Union strikers, with a sign on a big stick—"Clean up or the law will get you". What say?

Why Gold Went Up

By Andrae B. Nordskog

Since the New Deal came into power many people have wondered why the price of gold was so sharpely increased. Many students of money and gold realize that the price of that metal had remained quite stationary during the life of our republic and that it hovered around 20 dollars an ounce during that period of a century and a half.

Looking back over the years prior to 1933 we find that the dividends of gold mining corporations ran from 10 to 30% on their common stocks annually. And we also find that since the New Deal arbitrarily increased the price paid by our Government for newly-mined gold from $20.67 to $35 an ounce, these same corporations have paid dividends ranging from 60% to as high as 180% per annum.

Jews Own the Mines

Investigating the stock holders lists of these gold mining companies we find the names of the same men interlocked and interwoven throughout scores of the largest corporations, which, in turn, control hundreds upon hundreds of subsidiaries allied in one way or the other with the business of mining refining and merchandising gold.

These super-wealthy stock holders are constantly active in the politics of nations throughout the world. They control the election and appointment of public officials in the so-called republics and democracies; and for a long time past have also controlled the seating of monarchs in political dynasties, and removed them when it best served their needs even if they have had to start internal or external wars to do it.

Where gold has been used as the basis for money, these gold corporations have been able, by making the yellow metal scarce or plentiful as best suits their dividend needs, to control the financial and economic destiny of nations committed to the fetish of that sparkling commodity; a commodity which tickled the fancy of the savages because of its lustre.

Manipulate Prices

In many nations these gold corporations, through subsidiaries, compete in other lines with industrial and commercial institutions, frequently cutting prices in order to get new business at the expense of ruining their competitors. Then through manipulation of gold prices and currencies and credits, which they control through banks they own or control all over the world, these gold corporations make up whatever losses they may have sustained through their price-cutting in other industries.

The network of these gold corporations embraces the entire world. For hundreds of years, they and their predecessors have torn them down at will. When one form of government no longer suited their needs they would find convenient ways to start a civil war or a revolution, while they, the manipulators were safely hidden away on foreign shores.

Rothschild's Bank

It has been openly stated by gold operators in Europe that the present war is being waged by England in an attempt to save the Bank of England, so as to keep the world on the gold standard; the owners of that bank feeling, no doubt, that its "forever and forever" franchise has not yet expired.

At this very period the well-informed people of England are putting up a valiant fight to have their own Government take over the exclusive powers of coinage of money now vested in the private Bank of England. They know what this cruel war is all about; although the average American does not know.

The American people have been fooled by flannel-mouthed orators, directly or indirectly employed by these gold masters, into the belief that England is fighting for some imaginary cause known as "democracy". England never yet has been engaged in such utopian endeavors. The Boer war was fought by English soldiers so that this international gold-bund could grab off the valuable gold-producing properties in that area; and if space permitted we could cite other similar instances where battles were waged by patriotic warriors for the benefit of the gold-mongers instead of for the protection of the people's rights or properties as they were led to believe.

The gold prices were elevated by our government for the benefit of the international gold producers, and these producers have made profits of $20 an ounce on billions of dollars worth of that metal. The people of this nation did not benefit by it; they were just good Santa Claus and they have been compelled by this type of international philanthropy to give almost two dollars worth of American-made goods in exchange of these revalued international gold-dollars.

At no time has England conducted battles on foreign soil for the purpose of spreading the doctrine of democracy or defending its principles. But imperialism? You bet your life! God save the King and the Bank or England!!

Our United States

Press and radio in the United States, is definitely under Semitic domination—the former by subsidies and control administered through advertisers the latter by ownership. The Christian forces of the Nation have been penetration to a great extent by Judaistic penetration through organizations like the Federal Council of Churches on the one hand, and carefully "placed" Fundamentalist "fronts" on the other. Every key post in the New Deal Administration is held by a person of Jewish nationality, or someone "satisfactory" to the international Jewish Money Power.

Too much Semitism usually breeds anti-Semitism!

Six years ago, Defender literature published the fact of **President Roosevelt's Jewish ancestry,** based upon family-tree charts tracing the generic roots of the Roosevelt clan back to the early part of the seventeenth century.

Cordell Hull's wife is a Jewess. Claude Pepper, warmonger number one and advance reflector of New Deal policies in the Senate, is likewise the husband of a Jewess. **Fiorello La Guardia,** mayor of New York and head of the new civilian defense organization, is an Italian Jew. **Sidney Hillman, well known red,** credited with being one of the three men running the United States today, is a Russian-born Jew.

Isadore Lubin close friend of **Bernard Baruch,** publicized in "controlled" press editorials as "a modest public servant", recently appointed to the position of Roosevelt's special economic adviser, is of Jewish nationality. **Sol Bloom,** head of the powerful foreign affairs committee in the House of Representatives, is a Jew. **Felix Frankfurter,** Supreme Court Justice, credited with having written the Lend-Lease, war-dictatorship bill, is a Jew.

Samuel Rosenman, Jewish White House guest and long-time Presidential intimate, "helped" write the Roosevelt fireside talk of May 27, 1941. When John G. Winant was recently appointed ambassador to England, **Benjamin Cohen,** a Jew, was sent with him to occupy the post jointly. **Henry Morgenthau,** of the President's Cabinet, is a member of a powerful international Jewish family.

Hundreds of other names, chosen from the roster of the same racial stock, could be added to the above list. From top to bottom, the Government of the United States is today controlled by Semites. **Is this good for the Nation as a whole?**

Christians and patriots understand why some men in public life are persistently smeared . . . while others are persistently praised. Those loyal to the "control" get the orchids . . . while those who resist the "control" receive the brickbats.

For this reason, determined efforts were made in the United States Senate last month, to violate seniority rules and thus keep Senator Robert Reynolds from being appointed chairman of the Senate Military Affairs Committee. When he won, after a bitter fight, a smear program was immediately launched, with **Time** magazine and other similar publications, calling him a "clown".—Defender, Wichita, Kansas.

Judge Kelly Hits War Propaganda

Propaganda for American entrance into war to save democracy must be debunked and there doesn't seem to be anyone left to do the job except the Republicans, Judge Edward J. Kelly told the Men's Republican league at a luncheon meeting Thursday.

Kelly struck at claims that England is a democracy, pointing out its conquest of the Boer republics and its domination of India.

Canada Gets Paid

"Canada gets paid for supplies it ships England," the judge asserted. "We are giving away goods to the British empire. Sometimes we buy goods from the Canadians and give them to their masters.

"Just the other day I read an article quoting someone who had returned from aiding the British. He was quoted as saying that Canadians feel that Lindbergh and Sens. Wheeler and Nye should be placed in concentration camps. Is that the concept of democracy that you and I have?"

Speaker Cites Duty

The superior court judge said there has been some feeling that judges should not take part in controversial issues.

"But when the whole structure of government is endangered, it is the duty of everyone to speak up," he said. "Recently I attended a Jackson day dinner and heard a Los Angeles speaker laud Jackson and then uphold the British empire that Jackson fought.

"I'm not speaking on behalf of Hitler, Mussolini or any of the powers of Europe, but as an American who owes allegiance to the principles of the United States alone."

FEEDING FRENCHMEN HELPS HITLER—but the British Red Cross sends weekly a ten-pound box of food to each of the 44,000 English soldiers confined in the prison camps of Germany. Evidently feeding British prisoners does not save food for the Germans!

Americans, Emerge!

Remember. This Is a National Emergency!

My father was a Greek, my mother was Polish, I was born in Roumania and raised in Austria, but I am an American and **dare to be an American.**

If I wanted to be a Greek I would go to Greece and work out the Greek's problems loyally with them.

If I wanted to be a Pole, I would go to Poland and take my chances with the Poles, suffer with them and scheme with them to re-establish Poland.

If I were a Roumanian, my place would be Roumania where they need and always have needed honest men, for Roumania is the most crooked and mismanaged country, like all those king ridden unfortunate countries over there.

If I were an Austrian, to Austria I would go, because that would be my country and nationality.

But I did not want to be any of those nationalities, I was born an American on foreign soil and had to go where Americans live, that is why I am here in America. That my parents were Europeans has nothing to do with the truth that I am an American. I don't know of any white Americans whose forebears were not Europeans, but they, the offspring are Americans today . . . are they?

Yes, are they? Are they Americans or are they still British?

Are they Americans or are they still Jews?

You did not notice my becoming a member of any Greek society, or Polish, or Austrian or Roumanian. I don't fit in. I am thru being a Greek or a Pole, or Austrian or Roumanian. I am a member of two organizations only where a fee is required: The Men's Republican League and the Associated Farmers. Recently I joined the America First committee, but they require no membership fee.

What sort of Americans are those who are still British in mind and soul? What sort of Americans are those who still belong to Palestine and moan over Zion's fate and throw the whole world into an armageddon to re-establish the Rule of Zion over all the Nations. They are collecting good American dollars for Zionism. They are training private armies right in New York to fight for Zion.

Are they the Americans, and men like myself who have no foreign ties and sympathies, are we the aliens?

Because I dare point out that THE Alien Race is still an alien race, because I dare point out that the alien religion is still a religion of special privilege where God is alleged to have chosen **THEM** to lord over the rest of us, while our Declaration on Independence proclaims the exact opposite, namely that God has made all men equal and did not chose any group to be privileged in His sight over another; because I not only say these things, but warn my fellow Americans and am calling upon you to **EMERGE, stand up and be counted,** I am being told daily in private, and by federal officials, that I am to be sent to a concentration camp as soon as war is declared.

Evidently, then, I have to give battle to the aliens in our midst to protect the American ideals of government, to re-establish my independence from alien rulers right in our midst who are usurping powers never granted them under our constitution to rob and plunder and conscript us to fight THEIR wars to establish the Zionist rule under the flag of the British-American UNION NOW **everywhere in the world.**

If my lot is a concentration camp, I am happy to be a martyr for American ideals. If we have to give our lives, our blood, our substance to make America free, I am ready to give mine and shall keep on denouncing the alien, the British and the "Chosen People" who exploit and hypnotize the gullible into surrendering their American heritage for a bloody mess of bondage, 100 billions they say, and 200 billions if they can saddle it on the suckers.

Yes, this is an emergency! Emerge from your suckerdom and be counted, if you are for America first, last and all the time, or are you for Britain, the King and the rule of Zion? God save the poor king, for he is a goner anyway, not even American suckers can turn the clock back.

Read John 8, verses 31 to 59. You are not saying that Jesus is preaching race hatred?!

Shysters in The Seats of The Mighty

By Hubert H. Heath

HOT SPRINGS, New Mex.,—The writer has a profound respect for great legal learning, for legal lore and a great respect for a great judge who knows the law and deals justice with an even hand.

He has an equally profound contempt for the shyster lawyer, the misconceived rat who learns law that he may profit from twisting and defeating, for the crooked judge who uses the law for his own ends.

The writer is fully convinced that under the dome of our national capital the greatest group of shyster lawyers ever gathered under one roof has become intrenched, that they are a group whom no law will control, no oath will bind and no public faith restrain.

It is often said that "Congress doesn't understand" the money question, or some other great question where public interests are trampled.

That is just so much hooey. Congress does know and Congress does understand these things. No writer of any time has exposed our rotten monetary system more lucidly and more definietly than has FDR and it is safe to say that most of Congress heard or has read that.

There is big money and political favors for those who betray the people for the International Money Changers. There is a prospective oblivion and poverty for those who oppose and expose them.

Most folks prefer the top side of the bed and most folks like the butter these boys can spread on so thick when they get what they are after. Congress as a whole knows perfectly that powers not delegated to Congress were very specifically denied to it.

Congress knows that the decision of the United States Supreme Court, so recently republished in THE BROOM, is the LAW but Congress continues to pass "Emergency" legislation, knowing full well that official oaths require them to "Uphold and defend the Constitution, from enemies within and without."

They are fully aware that that great Court said: "The Constitution of the United States is a law for Rulers and People, equally in time of Peace or of War.

"No doctrine involving more pernicious consequences was ever invented by the wit of man THAN THAT ANY OF ITS PROVISIONS CAN BE SUSPENDED DURING ANY OF THE GREAT EXIGENCIES OF GOVERNMENT.

"Such a doctrine leads directly to anarchy or despotism, but the theory of necessity is false, for the government, within the Constitution, has all the powers granted to it which are necessary to preserve its existence."

Yet today "Wicked men, ambitious of power" constantly pass new usurpations of powers specifically denied. America needs some wholesale impeachments and imprisonments, but our Court has been packed with radicals, as has Congress with shysters. God have mercy upon America.

"Peaceful" Picketing Not Peaceful

Berkouf Freed By Woman Jury in Assault Trial

Benjamin Berkouf, 54, Twelfth ave., fruit stand operator accused of assault with a deadly weapon, was acquitted by an all-woman jury in Judge Charles C. Haines' department of superior court.

Berkouf was accused of stabbing Richard Ryan, A. F. L. butcher's union picket, with an ice pick on March 9. The defense contended that Berkouf had acted in self-defense after Ryan had struck him and after Ryan had sought to provoke a fight.

An unusual feature of the case was the absence of Ryan from the witness stand. The prosecution did not call him as a witness during presentation of its case, and when it sought to put him on as a rebuttal witness near the end of the proceedings, Judge Haines ruled such procedure could not be permitted, stating it was "highly improper to hold the witness until this stage of the game."

"I am making this ruling in compliance with section 204 of the code of civil procedure", said Haines. "The conduct of the prosecution was most astonishing to me. One would have expected the two principals to be presented in this trial to give their full version. I am most surprised. I had imagined that Ryan was in a hospital and was not available, but now the prosecution informs us that he was present in the courtroom but never placed on the stand till this late hour, when he is to be called as rebutal witness. The court is entitled to a full presentation of the case, counsel for the defense had no opportunity to cross-examine the main-witness to the fight, Mr. Ryan, who must know more about it than any other witness of the prosecution."

From the verdict of the jury it becomes evident that the AFL is not conducting peaceful picketing in San Diego, so that Berkouf was justified in defending himself and his property against the pickets. That being the case why does the police allow this type of picketing to continue?

Shortly after the fight Berkouf told the police that he had been called "a dirty Jew" by one of the pickets.

It's Jew-Jitters, Not Jiu-Jitsu

Mr. C. Leon de Aryan:

I have read with interest your comments on your contract for radio time being cancelled. You are to be congratulated that you have been so successful in speaking the truth that the radio station has gone into a case of jitters and are attempting to close their ears and the ears of others to what you have to say.

This appears to be a case of modern fulfillment of a Biblical truth, "Resist the devil and he will flee from you."

First, the Canadian Government gets the jitters and bars your paper; now your truths are coming so near home that those who fear the spread of truth attempt to flee from truth by attempting to silence it.

After all, it is remarkable the power of one man with the truth has; and the very fact that your contract has been cancelled should be an inspiration to those timid souls who say, "We can't do anything—what can one person do?" It should be positive to them that one person speaking the truth can have an extremely far reaching effect for good. Rather than discouraging, it should encourage them to come out from their hiding and declare the truths from the house-tops, knowing full well that if one man with truth can give those who fear the truth a bad case of jitters, that they too can be of real worth in the fight for justice, freedom, Christianity if they will only speak—speak clearly, plainly, and now.

Before closing, I am wondering if you have seen anything of that "National Emergency" that is supposed to be running around loose. I haven't been able to discover it and have been wondering if it were merely another phantom, like that "Prosperity Just Around the Corner", and "Roosevelt Recovery" which is even more vague today than the first day he took office.

Or was Roosevelt's proclamation of a national emergency only intended as a sales talk for the Du Ponts, U. S. Steel, General Motors, Douglas Aircraft, and others with war equipment and supplies for sale?

Perhaps, one shouldn't be too hard on Roosevelt and the New Deal, because apparently it has done one thing (only one that I can find) with an appearance of truth; that is calling Roosevelt's talks, "Fireside Chats"; as I understand it the fireside is where the "hot-air" comes from.

Again extending my congratulations to you for success in spreading the truth, and wishing you success.

Yours respectfully,
HERBERT S. MACE

Lunch Stand Poll Reveals Youth's Opinion On Present-day Affairs

A poll recently conducted at the Patio lunch-stand by Talmage Glazier, AUGUSTINIAN scribe, revealed that out of three boys from each class (Senior, Junior and Sophomore) the consensus of opinions was as follows:

Do you favor a British victory in present war? Yes 7—No. 2.

Should the peace (supposing Britain wins) be severe? Yes 1—No. 8.

Do you believe the United States will ultimately enter the war? Yes 8—No. 1.

Do you believe we are able to stand without Britain? Yes 8—No. 1.

Should Italy receive leniency or extra consideration in the peace? Yes 0—No. 9.

Should Europe be reconstructed on the same "democratic" plan as in 1918? Yes 2—No. 7.

Do you believe that war between the United States and Japan is inevitable? Yes 5—No 4.

Should we go to any extreme, even war, to aid England? Yes 1 No. 8.

Do you sincerely believe Hitler would attempt an invasion of America? Yes 2—No. 7.

Successfully? Yes 1—No 8.

If Nazi Germany is victorious, can we collaborate? Yes 6—No 3.

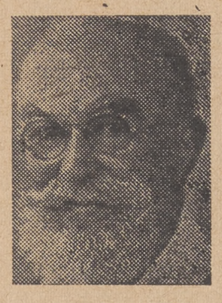
HEALTH-GERMS

By George Starr White, M. D.

LIGHT or INVISIBLE RAYS

We often read about "light treatments", and about "glass" for this and that treatment. For instance, the use of certain glass is said to allow more of the ultra-violet rays thru.

"Light" means the rays from the sun or other heavenly bodies, or some artificial luminous substance, that can be seen with the eyes. It does not refer to rays that cannot be seen. There can be no such energy as "Dark Light". The very term is contradictory. Nature gives us the sun to light us—directly, or by reflected light from heavenly bodies.



Dr. Geo. Starr White

Only thirteen percent of the sun's rays are visible. Seven percent are the ultra-violet and those like the "x-rays"; and eighty percent are the invisible ultra-red rays—the invisible rays at the red end of the spectrum.

If Nature had intended life to have a different combination of the sun's emanations, She would have so ordered it. Life has been developed and evolved thru the agencies of the rays **as they are**—not as man thinks they should be.

Scientists have gained a wrong conception of what is good and what is bad for humans, because they have experimented on rats, pigs, etc. They have used an unbalanced radiation on them and then made it "normal". Because thru the normalizing of the abnormal, they found the laboratory animals recovered from the effects of the unbalanced "raying", we are told that such-and-such rays are "cure-alls".

So they develop certain "glass" to allow more of certain rays thru. Why do we want more of them? **If we had needed them, Nature would have given them to us from the sun!**

Many serious conditions often follow the use of the ultra-violet rays from quartz, mercury-vapor lamps, and also from sunlight filtered thru quartz, or quartz and glass mixtures. The so-called "cold-light" is causing no end of nervous troubles—even insanity.

Nature has given us the ultra-red rays in a quantity that shows rays are essential to all life. The ultra-red rays pass down deep into the earth, thru the snow and the deepest waters, making all life possible. Without the ultra-red rays, there would be no life on this planet.

Quartz and "quartz-glass" cut out much of the ultra-red rays; and so make the life under them, if long continued, abnormal. Quartz-light produces cataract with resulting blindness. Quartz-light changes metabolism and produces a nervous condition difficult to remedy. "Cold light" rapidly degenerates the nervous system. "Cold-light" signs are signs of death!

The light, or rays, as Nature intended for life, are what we require. Get all of that open-air light possible. Let the body be uncovered whenever it is possible, so the air can strike the skin at the same time the open-air light does.

There is a "something" in the air that the skin needs and calls for. Nature made us to have the air as well as the mixed sun's rays on our bare skins. Because "fashion" has decreed that we wear clothes, is no reason why we should make matters worse by trying to live in rays that Nature never intended us to live in.

A naked person can endure much cold and feel no bad effects from it. But a partly clothed person will become "chilled" when in the cold air.

Nature knows best. Nature made the sun and the earth and the vegetation, before any individual life was evolved.

"Modern" scientists act more like lunatics than like normal persons. They have gone "speed mad" and brilliant-light mad.

If we intend to be in health, we must follow Nature's plan, not the plans of laboratories; nor the whims of lunatics!

Good THOUGHT

Good WORD — Good DEED

The Mazdaznan Philosophy

The purpose in Life is to solve all its problems, however stupendous or perplexing, and to make deductions, definitely, analytically, minutely and satisfactorily to the mind, whatever its attitude be it on the ascendancy of the Infinite or the descendancy of the finite. No one other than ourself is able to set us at **ease** in this direction. No other means will accomplish this task more effectively than a heart at **ease** and a mind at **peace**; the **peace** that surpasseth all the understanding of man and removes all misunderstanding from him.

Peace comes to us thru **revelation**, and revelation depends on **inspiration.** All inspiration comes to the man who recognizes God, the creative principle, everywhere, in me and above me. Here we awaken to the full realization of what it means: "the God in whom we breathe (live), move and have our being."

From the evolutionary standpoint we take it for granted that everything evolves from out of the atomic realm of Ether, and this ever-creative substance permeates Space, while Time reveals in accordance to its gradations the end of crystallizing processes.

"It is all in the air," we ordinarily say, whereby we mean that the "spirit of the times" moves all things toward a goal of better ends. Creation is not the end of things, but the means unto an end.

To grasp more fully the purpose and destiny of Life and Nature man needs to find the storehouse of knowledge, from which he may draw at will and in accordance to requirement. To draw upon this storehouse he necessarily has to be in possession of means of exchange, or the key. This key and means of exchange come to man at birth. All of the Intelligence to put him **en rapport** and in correspondence with the desired object of his thought is born in man, while to the treasures of heaven and earth he is heir and joint heir.

To become conscious of the latent powers and forces which alone unlock the treasure-house of knowledge man must become harmonious with all the laws of Life and be in tune with the Infinite upon whom he desires to draw for wisdom.

The attainments and achievements are not gained by study, but by **practice.** We may study and learn, still in the end it may be said of us in the words of the prophets: "They are ever learning, but **never** come to the **understanding** of the Truth."

A Resolution

WHEREAS:

To convoy or not, the question arises
Confronting the public in numerous guises,
Each morn we awaken to further surprises
From Pepper and Stimson and Willkie and Knox.

AND WHEREAS:

Who will lie in his bed so snug and so dry
While the bed of the ocean holds some other guy?
Who will call for more men to be sunk bye and bye?
Just Pepper and Stimson and Willkie and Knox.

AND WHEREAS:

How sweet in the gloaming at the end of the day
To pull off your sox and dive into the hay
After giving some youngster a ticket one way—
That's Pepper and Stimson and Willkie and Knox!

THEREFORE BE IT RESOLVED, THAT:

We favor one convoy—we certainly do!—
And when it sails forth from port or bayou
We fervently pray that it's manned by the crew
Of Pepper and Stimson and Willkie and Knox!

(Resolution unanimously adopted by the Headquarters Meeting of the America First Committee, Southern California Divison, Thursday evening, May 15, 1941.)

"Stay Out of War!"

Americans Urged to Retain Courage, Power to Think

Americans should not lose the courage to think for themselves, or to say what they think, no matter how confusing "is the rush to join the bandwagon of war," Kenneth Brown, Hoover High school graduate senior, said at the commencement exercises in Ford bowl, Balboa Park.

"In these days when the light of level-headed thinking seems to have almost gone out, our public schools struggle gallantly on, attempting to teach young Americans how to think, and refusing to tell us what we must think," said Brown.

Grateful for Liberty

"We are grateful that there still is a country where national defense includes schools that go on giving us a basis for sound reasoning and unbiased judgment. Logic and independent thought are the essence and the weapons of democracy. We cannot preserve democracy by abandoning the right to think for ourselves, falling prey to propaganda, and jumping on bandwagons.

"In attempting to preserve democracy, we ourselves by falling prey to propaganda and warmongering will snuff out the flame of freedom, unless we keep foremost at all times the essential purpose—the essential nature of our way of life.

"If we are to combat foreign isms, we must combat them not by arbitrary statements but by logical comparisons.

"We must not only guard against the influences of foreign ideologies, but we must protect ourselves from our own tendency to abandon logic, to abandon truth, to abandon all when a temporary emergency arises and rush to join the bandwagon of war.

"Unless we are cognizant of our true goal, the goal of complete tolerance and unselfishness, we cannot hope to avoid the chasm of war and dictatorship.

"We American citizens possess a sacred right, the right to do our own thinking. True, we have leaders, but they are "executives" and by the very definition of their titles they should have power only to carry out our wishes. There is no man, however wise and great he may be, who is granted the right to do our thinking for us. The most important single aim of America should be the training of youth to exercise their right to think independently. Coupled with the omnipotent weapons of courage, tolerance and freedom, and tempered with sound reasoning, our capacity to do our own thinking, and to have the courage to fight for those principles which we believe are just, will cause us to triumph over all opposing forces.

Must Not Follow War-Mad Leaders

"After thousands of years of tragic war the peoples of the earth still have not learned the folly of following war-mad leaders. Today our entire national life is keyed to meet the emergency of national defense—defense against the subversive forces which seek to undermine our democratic system of life. We are arming materially to defend our nation against foreign foes; every financial and military effort is being made to prepare America to meet her crisis.

"HOWEVER, we must not overlook a far-more important weapon of defense! Defense against the internal foes who seek to drug the popular mind with poisonous propaganda and "war-talk".

"Democracy's emergency demands that we arm ourselves with TRUTH and with the sublime and never-failing light of logic and independent thought. There is no chance of our being subjugated under the yoke of dictatorship and absolutism so long as we intelligently exercise our constitutional right to think independently."

What Do You THINK?
Only 5% of the people think,
10% more imagine they think,
but of the 85% many will soon

British Secret Service Report 1919

(The Beacon Light, Atascadero, Calif.)

Extra-Scholastic Educational Bodies

We have spread everywhere the Boy Scout Movement and placed the 1,000,000 American Boy Scouts under Sir Baden-Powell. Through the good offices of a British subject, Mrs. Juliette Low, and Mrs. Arthur Choate, we have enrolled 60,000 in the Girl Scout Movement under the leadership of Lady Baden-Powell. And the Chief Scouts now propose a periodic interchange of Scouts between England and America at the expense of some "American" millionaire. We have, moreover, linked the Scout Movement with the varied patriotic organizations for maidens and for youths, and with the school system through the loyalty of Dean Russell of Columbia University. In his case a degree from one of our universities is already overdue.

For the young over Scout age we have the Y. M. C. A. and Y. W. C. A., and other kindred organizations, financed by our auxiliaries and directed by gentlemen such as the Rev. Drs. Mott and Speer, who hold degrees from the University of Edinburgh, and who are imbued with our culture. These organizations have directorates interlocking with the Scout Movement, and are affiliated with the organizations of the same name in England. As the style here has it, they are "internationalized". We are arranging further to link up all these extra-scholastic bodies and to correlate them through Teacher's College, Columbia University, with the school system, so that we may remove the mind of the young from prejudicial family influences and peculiarities, to the custody of a series of organizations which will exert a continuous standardizing influence during the formative years. Quantity production of thought to prove disciplined, evangelical, uniformed colonists, is thus insured to the Empire. I can not too highly commend the financial support which Messrs. Dodge, Pratt, Macy and Rockefeller, together with Messrs. Warburg, Schiff, Morgenthau and Rothschild have given to this standardizing campaign. President and Mrs. Wilson have graciously bestowed their patronage upon it; Miss Wilson has aided it with song; the Presidential son-in-law, less tuneful, hast been no less helpful; and all the official family, male and female, have been zealous even where they have proved expensive.

Education and Universities

For those who can afford the Universities, we are, as I have already mentioned, plentifully supplying British born or trained professors, lecturers and presidents. A Canadian born admiral now heads the U. S. Naval College. We are arranging for a greater interchange of professors between the two countries. The student inter-change could be much improved. The Rhodes Scholarships are inadequate in number. I would suggest that the Carnegie Trustees be approached to extend to American students the benefits of the scheme by which Scottish students are subsidized at Scottish Universities. If necessary, a grant from the Treasury should be obtained for this excellent work which, however, should remain for the present —at least outwardly—a private enterprise. The Encyclopedia Britannica has made the Home University of those who are too poor to attend college. I can not too strongly emphasize the importance which I attach to the thorough anglicization, or, as we here prefer to call it, "Americanization", of the University system.

Pulpits

British born and trained prelates, divines, and pastors have been provided as popular preachers here in many of the leading churches. The good work done by the Rev. Drs. Manning, Jowett, Kelman, McLeod and Hugh Black is beyond praise, although I fear Dr. Manning's indorsement of our healer, Hickson, may vex some of our Christian Science colonists. Of the many others deserving of mention I shall name only the Rev. Dr. Chas. Eaton, late of Toronto, who as a Baptist minister, as a war controversialist, as President of the Canadian Society, and as an exponent of Americanism, has been indefatigable. The visit if His Grace the Archbishop of New York was a most welcome event in Anglican circles here, as was also, though of lesser degree, the visit of His Grace the Bishop of Oxford, the Roman Catholic Bishop of Northampton, and Monsignor Barnes fulfilled the mission upon which they were sent by His Majesty's Government to their co-religionists here. The Moderators and lesser dissenting dignitaries imported by us created a calculable atmosphere of righteousness for our campaign. And so did Lord Reading among the members of his faith; owing to Colonel C. G. Bryan's success as censor in suppressing here all the news of the "Dope Scandal" which displaced the "Marconi Scandal" in his Lordship's family.

We are arranging to augment the number of British professors in the various theological seminaries here. The clerical intercourse between this colony and the Motherland should be fostered by an increasing supply of popular British preachers, by providing British correspondents for the native priests and pastors, by the organization of sermon and lecture bureaus here, by the promotion of Church Unity throughout the English-speaking world, and by English tours for American pulpiteers.

The American preachers whom we sent over here, have returned and are proudly recounting from many pulpits the honours shown them in England. In his latest report, the Rev. Dr. Frederick Lynch, Secretary of the Carnegie Endowed Alliance for the Promotion of Friendly Relations between the Churches, and likewise of the Church Peace Movement, feelingly acknowledged the special stateroom trip we provided for his party on their recent European trip, and alleges that noble Englishmen condescended to shake his hand.

I am happy to report that the movement of which the Earl of Dysart is president, The Imperial British-Israel Association which is founded on the belief that the English are the lost tribe of Israel, and the people who shall inherit the earth, is thanks to the work of Brigadier General Bridgeman, making great progress here in spreading the knowledge that the British Empire fulfills divine prophecy. Its monthly magazine, "The Covenant People", is increasing in circulation, and flourishing communities of these inspired Imperialists exist in many cities. Deserving of special mention is the Philadelphia community under the able direction of the Rev. Samuel Clements, 1616 No. 54th St., Philadelphia, assisted by the Rev. J. C. Keller, the Rev. Albert Cummings and Messrs. J. M. Orr, G. B. Tulledge, F.. Rodgers, J. Greig, and J. T. Wheeler.

is done to remove the incentive to these labor rackets. The way it is the private citizen is in the wrong all the time and gets the worst of it. The federal administration encourages the unions to interrupt private management and then the army steps in and says because you cannot manage now we will take over. That's a nice setup.

UNION NOW -- Treason

FRED—I listened last Saturday to the Radio Forum when you and Mr. Akers debated against UNION NOW that was being advocated by Dr. McGregor and Mr. Baird. Don't you think that Dr. McGregor is right about stopping the war if we join up with England now? Germany, then, would know that it cannot win the war.

DAD—The UNION NOW idea is going to stop the war just like Henry Ford stopped the war and got the boys out of the trenches by Christmas when he chartered a boat and filled it with a lot of New York Eastside radicals who were supposed to argue the British government and the Kaiser out of the notion of fighting. UNION NOW is going to bring peace to the world the same way that the Kellogg Peace Pact outlawed war and assured eternal peace on earth.

FRED—What was that Kellogg Peace Pact you are talking about?

DAD—You were in your swaddling clothes when that propaganda was put over by a bunch of cracked-brained agitators and the United States went whole hog for it. Mr. Kellogg was secretary of state at the time and the newspapers all praised it, the way they now holler for help for Britain. Every nation was invited to sign up that it would never go to war without first submitting its grievances to arbitration. And look how they are fighting and we are arming post haste for it, too.

MOTHER—But if Dr. McGregor is right that the union of Britain and the U. S. would sober up Hitler and make him think twice, would it not be worth while giving it a trial?

DAD—It is not going to sober up Hitler, as the doctor claims, anymore than Ford got the boys out of the trenches by Christmas. All it will do, if we were foolish enough to become a colony of Britain again, is to destroy our Independence politically and turn the clocks back to 1776 when our life was directed from London.

MOTHER—But how could Hitler successfully fight Britain and the U. S. at the same time?

DAD—You cannot force PEACE upon the world by having the biggest army. If the U. S. joins the war and takes up Britain's imperialistic burdens, immediately new forces are set into operation to counteract it, because it is unnatural to produce PEACE, or paradise on earth by force of arms. It's against the laws of God and nature. People are not going to submit to it anymore than the Germans submitted to the Treaty of Versailles. It will be merely a matter of time till a new combination of peoples would materialize to dispute the type of peace that would be forced upon the world by force of arms of the British-American combine. UNION NOW would sow the seed of an even greater war than the present one. In 20 years after such a union you would find all the countries on earth banded together against us to wrest their economic independence from the dictatorship of Combined British-American forces.

FRED—Why do they always advocate such things as Kellog's Peace Pact and Union Now, if no peace can come from it, daddy?

Sabotage of American Ideals

DAD—Because it diverts the attention of the public from the real solution of the problems facing us and enables the exploiters of popular hysterias to further saddle their control upon the people and their products.

FRED—You mean to say they do that on purpose?

DAD—Absolutely.You can divide human beings into two classes roughly: Those who love to work and produce and those who think they are smart if they take away the products from the hard workers.The whole feudalistic system was perverted to the uses of the parasites. The lords who owned titles to the land collected tribute, tithes, rents from the people who worked on that land and they are still doing it. Then comes the manipulation of money. Those who regulate the value of money, who issue the money and the credit who can devalue its buying power, they, again, have a good means of getting something for nothing and legally appropriating to their own name that which was produced by others. They can take mortgages upon land and valuables at a nominal face value and then start a hysteria that tightens up credit and collect from those who cannot pay interest on the mortgages, by foreclosing and virtually confiscating and wrecking the labors of a life time.

FRED—Are they the ones who advocate these types of pacts like the Kellog Peace Pact and Union Now?

DAD—Yes, Fred. They have more leisure than the people who work honestly for a living, and they use their leisure to figure out new ways and means to create rainbow utopias in the minds of the gullible, by which the people will imagine that there is a shortcut to PEACE without honesty.

MOTHER—What you mean is that people must honestly work for peace, before they are entitled to it?

DAD—I mean that peace is the result of honest labor by which everybody gives real service in exchange for goods and services received on an equitable quid pro quo basis.

FRED—But this will take a long time, until all the people decide to work instead of expecting to get rich by speculation. I have read in magazine stories where people became very rich playing on the stock exchange.

DAD—As long as gambling with other people's labor and products is held up to the growing generation as a legal means of getting wealthy, naturally everybody who knows not the first principle of morality and sound social relationship will try to outsmart the other fellow and get something for nothing. But that only leads to exploitation, to poverty for those who worked hard but lost out in the gamble, a life time's savings. This general attitude is responsible for conditions as we find them. God and nature intended us to produce as individuals all that we need. He who produces the most shall have the most. We can unite as partners and corporations and produce even more. But we must divide the product according to productive effort of the producers and not according to dishonest procedures sanctioned by feudalistic ownership titles dating from the dark ages and according to a money system based on usury and not on honest banking and book-keeping.

FRED—You mean to say, that UNION NOW will not bring peace until everybody will do an honest day's work and not try to rob and cheat his neighbor? That will be a long time coming.

DAD—It makes no difference how long it takes. That is the Law of God in this universe and there is no way to short-circuit or shortcut it. We are here upon this earth to learn to be honest and self-reliant. We shall continue to suffer the consequences until we learn our lesson.

MOTHER—Freddy it's time for you to play "Old Folks at Home" by Stephen Foster.

FRED—(On harmonica).

By Charles H. Ingersoll
(Of Dollar Watch Fame)

Unionism-Communism - Twins

In Michigan Ford is given a temporary labor injunction on prima-facie evidence; and I would say the evidence is quite enough to warrant such recourse to law. In a nation of law and order—as we were once rated—what could justify such use of that utility of civilization—LAW—if seizure of a billion-dollar factory by 85,000 men did not do so? So the U. S. Judge—Tuttle, reasoned. "The local police, the sheriff of the county, and the state forces having been outnumbered and flouted, an injunction that had the Grand Army behind it was in order."

Ingersoll

Yet for 25 years 'labor' has been trying to prohibit such action, **except after trial in court;** which, of course, **begs the question of injunction,** which is only for emergencies that can't wait for slow motion. And our new Ex-War-Secretary Governor of New Jersey, himself an employer of thousands, uses 14 pens to please 14 labor leaders, in signing just that kind of law!

Labor and Uncle Sam are being put into rhyme by War Secretary Stimson, who at the moment occupies the limelight of press conferences, and on a subject generally considered up to the President. But it is very appropriate, as the Secretary does, to revert to forty-seven years ago, when this labor injunction issue was started by the patron saint of Laborism and Communism, Eugene V. Debs, who opposed labor injunctions and calling out of U. S. troops in one of these revolutionary strikes at Pullman, near Chicago.

And we might say Grover Cleveland and Governor Altgeld, of Illinois, who issued the troops, were of the last of our Jefferson democratic individualistic Presidents and Governors, because they knew that labor had more serious problems than could be settled by strikes, or even revolution. And that is true today.

Though New Dealers may deny it, I assert that the ten years of catering to Unionistic-Communism has done nothing to benefit labor as a whole, but that it has developed a broad national situation of near-revolution, which is likely to be insoluble by the President, Congress, or any other power, unless it be a removal of the basic cause of ALL labor unrest, which will include the problems of unemployment, poverty, and war—civil and international.

A Communist organizer whispers to me that 'this war is not going to be like the last one, as to the boys hustling cheerfully away to fife and drum. This is one of the first symptoms of this change!'

And a big business executive also whispers that soon there will be ten million men in this revolt, and it may take as many more to suppress the revolt.

If basic monopoly is to continue as an onlooker in all our warfare, no one is big enough to be responsible for events .

The theory of unionism is given by Karl Marx, and as a part of his doctrine of anti-property, capital, and wealth. If this statement, made in connection with 'our American way of life', which has always recognized the validity of these elements, is not enough to rule out both Marxism & Unionism, it would indicate a lack of sense of proportion. If it cannot be realized that putting our legal machinery behind the Union in the Ford fight, is not equivalent to abrogating our constitution and law that protects private ownership, there would seem to be no hope for continuing our American way of life. What more obvious violation of our law of property can there be, than the forcible possession of a billion dollars' worth of property?
